

## Jacqueline Cronje-Webb

---

I have always been driven by passion & quality of life.

The Real Estate Industry gives me the opportunity to share my passion and improve the quality of my colleagues, clients and families lives. I have been involved in many different occupations prior to the Real Estate Industry, however delivering a professional service to my clients comes so easy and has never felt like a job.

I take pride in the quality service I deliver to my clients, which I strive to achieve with each and every client I have the pleasure to assist.

Building a team of professional agents "**Team Centuria**" powered by "Real Estate Services". I have the opportunity to provide my brand of service to my clients, and help young professionals with their journey going forward, and enjoy the satisfaction of playing a part in other agents success.

Outside of the work environment I spend time with my family, enjoying the outdoors and a healthy life style.

It is no wonder that myself and the agents working within "**Team Centuria**" have pledged to live up to our mission and vision statement.

**Delivering excellence, exceeding our clients expectations,  
while adding value to each other.**

Yours Truly

**Jacqueline Cronje-Webb**
